

K-Love is extremely important to my community. They broadcast to those in need and give current updates of things going on in my community and surrounding areas. It would be devastating if we were to lose this radio station. Their service is in the public interest because of the nature of programming, their music, news, community service announcements, special programming, prayer service and much, much more. Please let them be. I will pray that you do not affect them in any way.
